

Summit School of Leadership and Management

As mid-career professionals, the knowledge and experience gained will be dedicated to providing quality services in Fellow's organisation on return to home country and this will be geared towards sustainable development. Fellows will be empowered and supported through various programmes and given the opportunity to work with other international institutions in education, engineering/technology, Agriculture, Health, Government and other sectors.

Participation in leadership and management skills development programmes and involvement with activities offered by the Fellowship will enable participants build new leadership skills leading to better service delivery and positive work attitude. The Fellowship will be equipped to engage with major stakeholders Government Agencies and international organisations to pursue the UN sustainable development goals. On return after the Fellowship, it is expected that the Fellows will play a major part in knowledge/skill transfer, promote educational awareness programmes in their home countries, and continue networking with other UK institutions to expand the relationship.

Eligibility

Applicants must be mid-career professionals who are employed or self-employed in the following sectors - Education, Engineering/Technology, Environment, Energy/Power, and Health Care.
