## 2 - What SDG does it address?

## 2 - Choosing who to focus on

## 3 - Who are they?

## 4 - Public Engagement Inspiration

### Advertise your work

Make a video or infographic about your work and post it on social media. You can also create a poster or infographic and post it on social media.

Go to <https://www.youtube.com/watch?v=...> for more inspiration.

### Engage with your community

Engage with your community by attending local events, such as town hall meetings or community forums. You can also reach out to local organizations and businesses to see if they have any projects or initiatives that you can help with.

Go to <https://www.local.gov.uk/> for more information.

### Use social media

Use social media to share your work and connect with others. You can also use social media to find out what others are doing and to get feedback on your work.

Go to <https://www.facebook.com/> or <https://www.instagram.com/> for more information.

### Collaborate

Collaborate with others to make a difference. You can work with local organizations, businesses, and other community members to create a positive impact.

Go to <https://www.collaboration.com/> for more information.

### Conduct

Conduct a survey or focus group to gather feedback from your community. This will help you understand what your community needs and how you can best serve them.

Go to <https://www.surveymonkey.com/> for more information.

### Class activities

Class activities are a great way to engage your students and help them learn about public engagement. You can use a variety of activities, such as role-playing, group projects, and guest speakers.

Go to <https://www.classroom.com/> for more information.

### Class projects

Class projects are a great way to engage your students and help them learn about public engagement. You can use a variety of projects, such as community service projects, research projects, and creative projects.

Go to <https://www.classroom.com/> for more information.

### Classroom

Classroom activities are a great way to engage your students and help them learn about public engagement. You can use a variety of activities, such as role-playing, group projects, and guest speakers.

Go to <https://www.classroom.com/> for more information.

### Classify

Classifying your work is a great way to help others understand what you do. You can use a variety of classification systems, such as the Dewey Decimal System or the Library of Congress Classification.

Go to <https://www.classification.com/> for more information.

### Class projects

Class projects are a great way to engage your students and help them learn about public engagement. You can use a variety of projects, such as community service projects, research projects, and creative projects.

Go to <https://www.classroom.com/> for more information.

### Class

Class activities are a great way to engage your students and help them learn about public engagement. You can use a variety of activities, such as role-playing, group projects, and guest speakers.

Go to <https://www.classroom.com/> for more information.

### Conduct your own research

Conducting your own research is a great way to learn more about your community and how you can best serve them. You can use a variety of research methods, such as surveys, focus groups, and interviews.

Go to <https://www.research.com/> for more information.

### Online survey

Online surveys are a great way to gather feedback from your community. You can use a variety of online survey tools, such as SurveyMonkey or Google Forms.

Go to <https://www.surveymonkey.com/> for more information.

### Involve your community

Involving your community is a great way to ensure that your work is relevant and useful to them. You can use a variety of methods, such as focus groups, community meetings, and public consultations.

Go to <https://www.involvement.com/> for more information.

### Get involved

Getting involved in your community is a great way to make a difference. You can use a variety of methods, such as volunteering, donating, and running for office.

Go to <https://www.getinvolved.com/> for more information.
