1 Referees

List the names and positions of three referees who are qualified to comment on both your capacity to benefit from your proposed study in the UK and your ability to deliver development impact afterwards. You are expected to provide references from your current/most recent employer, your most recent academic study and you are required to provide the details of someone to be a 'personal' referee. The individual should know you in a personal rather than a professional capacity and should not be related to you.

If you took a degree by distance from a UK university you should include a fourth referee from your study with a UK university.

You will be asked to upload the references, on institutional letterhead or an email clearly showing the sender's details, at the end of the application form.

Your application will be considered ineligible unless it is accompanied by at least two references. It is your responsibility to ensure that each of your referees is able to provide the reference by the deadline.

Some examples of a referee's relationship to you are Supervisor at work, Personal referee and supervisor.
