

# CSC Mentoring Programme

## Tips to support doctoral Mentees

From October- December, your Mentee may require further support to develop the skills needed to continue their studies. To support you and your Mentee, we have compiled a list of topics you should discuss with your Mentee to help them through the next stage in their studies and professional development.

Building professional and academic networks to support research

Communicating research to a general audience, stakeholders, and potential funders

Implementing skills and knowledge from year 1 into future years of their studies

Developing professional skills

Seeking wider research opportunities, such as conferences and research groups

Achieving development impact beyond research outputs

Continuing to engage with the CSC Scholar community

Accessing wellbeing resources and support available on the [CSC website](https://www.cscuk.org)
