

# CSC Mentoring Programme

## Tips to support post-scholarship master's Mentees

From October-December, you will be in the final stage of the mentoring programme. Your Mentee should have returned home and will be adjusting back into their homelife and previous employment, or looking for new career and professional development opportunities. To support you and your Mentee, we have compiled a list of topics you should discuss with your Mentee to help them through this next stage in their career.

Returning to previous employment

Planning for further study post-scholarship

Identifying new employment opportunities and careers advice

Implementing new skills and knowledge in the workplace

Building professional networks and connections

Developing a personal brand

Achieving development impact

Continuing to develop professionally. Look out for resources available for recently completed Scholars on the [CSC website](#)

Engaging with the CSC Alumni Network and community
