

LifeLine Network International - Professional

The LifeLine Network International Fellowship will enable applicants to hone skills needed to participate in local development within their context in Sierra Leone. LNI has expertise in developing connections which lead to collaborative problem solving and programme designs that create sustainable transformation.

This year the programme will focus on empowering emerging local leaders in enhanced operational capacity and offer training and experience in the soft skills and technical skills as well as cross cutting themes of leadership characteristics. We confidently expect Fellows to develop professional networking skills in a way that makes an impact and can help establish long-lasting relationships with funders and policy makers at grassroots and strategic levels. Alongside this, they will build personal competences to elevate their roles to enhanced responsibilities through a high-level mentoring programme.

Eligibility

LNI will prioritise candidates put forward by Lifeline Nehemiah Projects based in Sierra Leone with whom LNI has relationship spanning over 30 years. The candidates must be local young emerging leaders who have a commitment to develop their skills and character for the good of the LNP's vision.

Proposed Programme Dates: 24/02/2027 to 07/04/2027

Priority Theme: Access, inclusion and opportunity

Recruiting from an established network: Yes
