

Lifegate Outreach Centre - Professional

Lifegate Outreach Centre is a registered faith-based charity located in Walsall, West Midlands. We are dedicated to transforming lives and strengthening communities through inclusive engagement, social development initiatives, and international partnership programmes. Our mission is to improve individual and community well-being through skills empowerment, leadership, and vocational programmes that equip vulnerable groups, professionals, and community members with the knowledge and capabilities to drive sustainable development. This is achieved effectively by working with various learning centres, other faith-based organisations, charities, and not-for-profit organisations.

In Walsall, we deliver programmes that promote social inclusion/values, mental/physical well-being, skills empowerment, education, and equality. Internationally, we support programmes that promote our mission. The Professional Fellowship will be classified into the broad categories of Sustainable Community Development, Public Health, Water, Sanitation, and Hygiene (WASH), and Innovative Technological Development. It will focus on strengthening Fellows' skills in community health, hygiene promotion, sustainable practices and technology-based solutions.

Eligibility

The Fellowship is open to mid-career and emerging professionals working in the fields of environment, education, water, sanitation, and hygiene (WASH); science and technology; community development; public health; and public sector institutions. Applicants should demonstrate a commitment to community development, social impact, and sustainable development within their respective countries. Preference will be given to individuals who are actively engaged in implementing programmes, influencing policy, building institutional capacity, or leading initiatives that align with the CSC development themes and have the potential to create a measurable impact upon their return home.

Proposed Programme Dates: 15/02/2027 to 11/05/2027

Priority Theme: Improving population health, health systems and capacity

Recruiting from an established network: No
